Regolamenti:

RTTY

SSB – CW

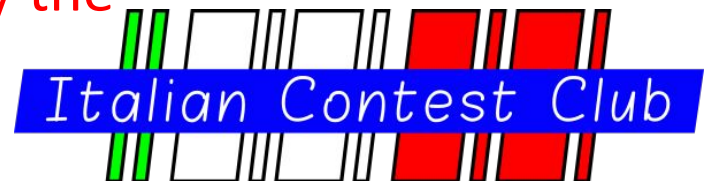

Do Your Logging During the Contest!

- “Correction of logged call signs and exchanges **after the contest**, by use of any database, recordings, email or other methods, is not allowed.”
- “Contacts should be logged at the time they are completed.”

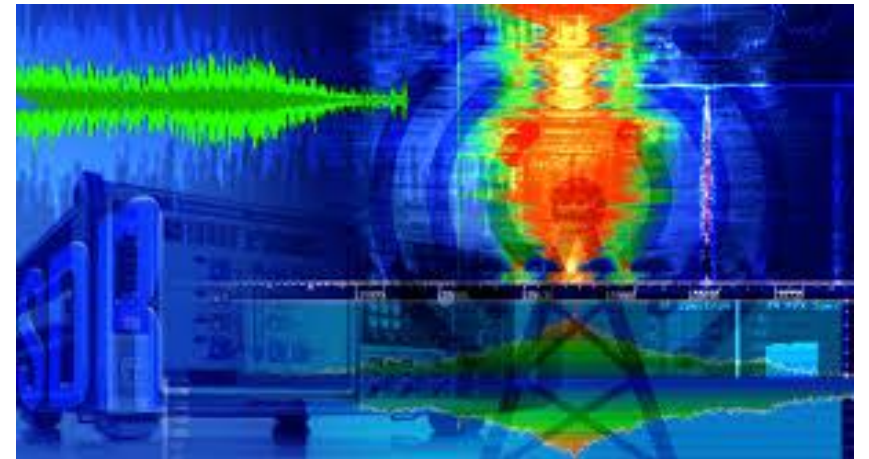

Top Competitor Rules

- “Stations competing for World and Continent awards must provide **actual frequencies** for all contacts in the log.”
- “Any single operator entrant (see V.A.1) competing for a top three finish at the (a) World, (b) Continent, or (c) USA levels, **must record the transmitted and received audio as heard by the operator** for the duration of the contest operation...”

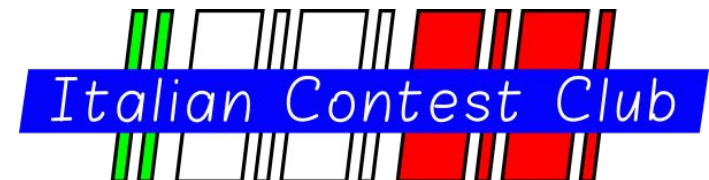

SDR Sites

- Wide band recordings of all bands
- Many sites around the world
- Enables us to go back and hear what actually happened during the contest – provides proof!
- Helps with investigating rule violations
 - Band changes in MS/M2
 - More than one signal
 - Bad or wide signals

Fair Play

- Contesting uniquely depends upon the integrity of the contestants
 - No referee, inspectors, spectators in the shack
- Single operators work alone
 - If you use the DX Cluster, or RBN, or other help, you are in the Assisted category
- Stay within category power limit

Log Checking Report

- Preliminary reports sent to high scorers
- All entrants in CQ WW will receive a log checking report
- LCR shows:
 - How score and penalties were calculated
 - Lists all errors detected
 - Shows all multipliers counted
 - List of how other stations made mistakes when working you

Controllo dei log

Per ogni contest manager, la fase più delicata nella gestione del contest è la valutazione dei log

Questa si articola in due fasi principali:

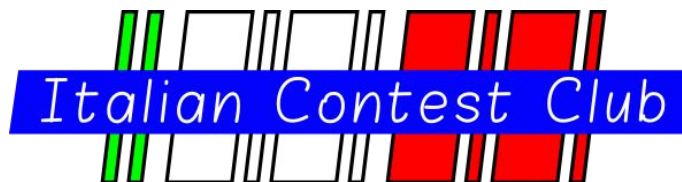

1. **Controllo Massivo** di tutti i log tramite appositi programmi
2. **Controllo Single Name** sui primi classificati e su tutti i log che presentano aspetti dubbi

L'output dei controlli: UBN

I controlli producono diversi output:

- Le **Classifiche**
- Gli UBN: file in cui ogni partecipante trova tutti i riscontri sul log inviato.
 - **Unique**: i contatti unici. Alcuni contest eliminano i contatti unici, altri invece (come i contest ARI) li lasciano
 - **Busted**: gli errori riscontrati nel log
 - **Not in Log (NIL)**: i QSO che non trovano riscontro nel log del partecipante
 - Altre informazioni utili per l'aggiudicazione dei log come: i contatti duplicati o l'elenco dei moltiplicatori

L'output dei controlli: UBN

I controlli producono diversi output:

- Le **Classifiche**
- Gli UBN: file in cui ogni partecipante trova tutti i rischi
 - Unique: i contatti unici. Alcuni contest eliminano i contatti duplicati e lasciano
 - Busted: gli errori riscontrati nel log
 - Not in Log (NIL): i QSO che non trovano riscontro nel log del partecipante
 - Altre informazioni utili per l'aggiudicazione dei log come: i contatti duplicati o l'elenco dei moltiplicatori
